

BETA 1047N/D3

Set of slip joint pliers, push button alignment

Features

Series 1047N slip joint pliers, push button alignment

PATENTED PUSH-BUTTON

Innovative push-button system that allows the pliers to be opened and closed using only one hand.

EFFECTIVE GRIP

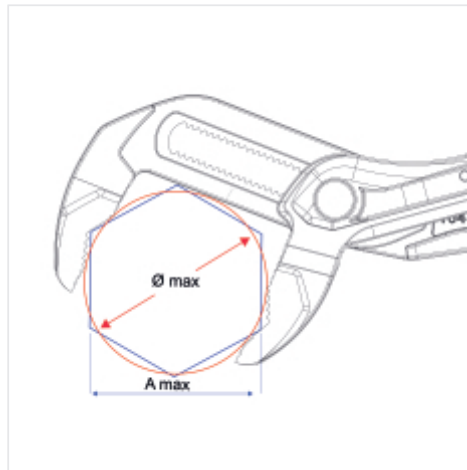

Pliers specially designed to improve gripping, the strong point of this type of product. By modifying the geometry of the jaws, it has been possible to increase the gripping capacity.

NO SLIPPING

Workpiece holding is guaranteed by the new pliers' teeth specially designed to prevent any unpleasant slipping during use.

INNOVATIVE GEOMETRY
Improved grip on pipes and hexagons.

LARGER HEAD-GRIP ANGLE
Increased ergonomics for easier handling.

TRIANGULAR SECTION HANDLE
Perfect adaptation to the user's hand and consequent reduction of the applied effort for increased effectiveness of each individual gesture.
