

## BETA 1047N

### Slip joint pliers, push button alignment

### Certifications and Standards

ISO 8976

### Features

Superior gripping experience with the push-button Poligrip slip joint pliers, a patented system that speeds up and eases handling.

#### PATENTED PUSH-BUTTON

Innovative push-button system that allows the pliers to be opened, closed and used with one hand.

#### EFFECTIVE GRIP

Pliers specially designed to improve grip, the strong point of this type of product. By modifying the geometry of the jaws, it has been possible to increase their capacity.

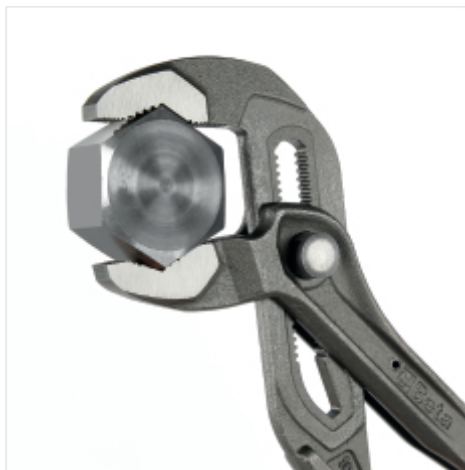

#### NO SLIPPING

Workpiece holding is guaranteed by the new pliers' teeth specially designed to prevent any unpleasant slipping during use.

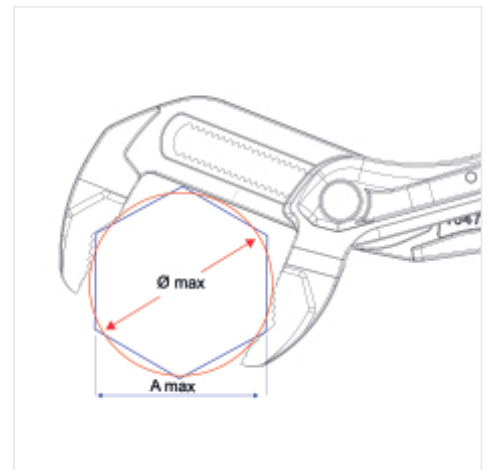

#### SELF-LOCKING PUSH-BUTTON

The innovative hinge lock button allows the jaws to lock automatically once in contact with the part of interest.

#### INNOVATIVE GEOMETRY

Improved grip on pipes and hexagons.

#### LARGER HEAD-GRIP ANGLE

Increased ergonomics for easier handling.
