The CAK-06 4K webcam elevates the standard of your online meetings, offering impressive image quality at a resolution of 3840 × 2160 px. Thanks to the Autofocus function, you always stay perfectly sharp without the need for manual adjustment, ensuring full professionalism during presentations. The built-in noise-cancelling microphone eliminates background noise, guaranteeing clear voice transmission. A 1.5 m cable helps keep your workstation organized, while broad compatibility (Windows XP-11, macOS, Linux) makes this device a versatile tool for both work and study.
