

# E1101S

## Magnetically coded target

DEFINED TARGET MN2xxS

| Application       |                         |
|-------------------|-------------------------|
| Installation      | for magnetic sensor MN2 |
| Mechanical data   |                         |
| Weight            | [g] 56                  |
| Dimensions        | [mm] 36 x 13 x 26       |
| Materials         | PA                      |
| Tightening torque | [Nm] 0.8...2            |
| Remarks           |                         |
| Pack quantity     | 1 pcs.                  |
