

Magnetic power cable (USB-C to USB-C) rc 1.0m Orange

The Magnetic Power Cable (USB-C to USB-C) rc 1.0m Orange or Blue is a high-performance 1-meter cable with a built-in E-mark IC chip, supporting power delivery up to 100W (20V/5A) and data transfer at 480 Mbps.

Its unique feature is its magnetic braiding (or magnetic coiling), which allows for quick, neat coiling without the risk of tangling.

The cable is primarily used for fast charging (Power Delivery up to 100W).

Thanks to its high power capacity (100W), the cable is ideal for powering demanding electronics:

- Laptops and ultrabooks
- Smartphones and tablets
- Portable consoles
- Data synchronization and transfer

The cable supports the USB 2.0 standard with data transfer speeds up to 480 Mbps.

It allows you to:

- Back up and transfer files between your phone/tablet and laptop.
- Sync data with external SSD drives with a USB-C connector.
- Magnets built along the cable allow it to automatically coil into a perfect, aesthetically pleasing circle.
- Ideal for travel and in the car. It helps maintain a minimalistic workstation.

It's worth purchasing a compatible GaN wall charger with a minimum power output of 65W–100W to fully utilize this cable's fast charging potential.

Country of Origin: China

Manufacturer: SUNNY

Operating Temperature: 0 ÷ 40[°C]

Length: 1 m

Approvals:

Application	Laptop / smartphones / portable consoles / data transfer	
DC Connector	2 x USB-C	
USB standard	USB2.0	
Fast charge	PD/QC	
Max load	100W (5A)	
Transmission speed	480Mbps/ S-MAX Data transfer	
WEIGHT / PACKING	1pc	N.W.: 51g
	cardboard	50pcs
		G.W.: 3kg
