

Passive PoE Adapter Set RJ45 DC 5.5 x 2.5 mm

Description

With this adapter set by Delock a network cable can be used for a 10/100 Mbps Ethernet connection and the simultaneous transmission of power. This requires the two adapters to be connected to the cable. Then a DC socket and a plug are available on both sides, to connect a power supply.

Please Note

An adapter cannot be used alone; the second adapter is always required.
