The Savio KB-04 Wired LED Keyboard is the ideal solution, combining reliability, comfort, and modern design. Thanks to the classic US layout (104 keys), it is perfect for both work and entertainment, guaranteeing comfort even during long typing sessions. Easy Plug & Play connectivity via the USB-A port and compatibility with the most popular systems (Windows, macOS, Linux, Android) mean the KB-04 is ready to use immediately – no unnecessary drivers required. It stands out with its eye-catching LED backlight, which not only gives it a stylish look but also makes working easier in low-light conditions. The brightness can be easily adjusted using the dedicated Page Up / Page Down keys. By choosing the KB-04, you are opting for durability. The keys have a lifespan of up to 5 million clicks, ensuring years of trouble-free use. Additionally, the lightweight and compact design fits on any desk, and the long 1.4-meter cable provides freedom for connection.
