

BETA 7647GG

Sleeveless softshell work jacket, with graphene

Certifications and Standards

Features

The Beta line in graphene combines temperature-regulating properties with a modern design for clothing that makes you feel and look your best.

GRAPHENE TECHNOLOGY

Graphene in fabrics optimises thermal comfort: it absorbs excess heat and releases it when it gets cold, maintaining an ideal temperature. It is light, durable, and improves garment comfort.

MODERN DESIGN

The Beta work jacket in graphene is studied in detail: modern design and tailor-made customisation converge to offer comfort and distinctive style in every work situation.

SMART TECHNOLOGY

Graphene is an intelligent material that efficiently absorbs, retains and dissipates heat, ensuring maximum thermal comfort.

MULTITASKS

Numerous pockets in different sizes ensure that the items needed for work are always at hand.
