

Electric Car Accessory

Model: **AK-SC-E29**

Product code	AK-SC-E29
Responsible Entity	Akyga Europe Sp. z o.o., 52-200 Suchy Dwór, Wrocławska 1c, Polska/Poland, contact@akyga.com
Product type	Electric Car Accessory
Supply voltage	250 V
Number of phases	1 phase
Maximum current	13 A
Maximum power	3.5 kW
Flame resistance	UL94V-0
IP Rating	IP44
The cable plug #1	Type 2 (IEC 62196-2) Male Connector
The cable plug #2	German plug (Schuko) CEE 7/4
Plated plugs	Silver
Material	TPE
Product color	Black
Temperature	-30 / +50 °C
Product size (L x W x H)	125 x 70 x 60 mm
Net weight	224 g
CE compatibility	Yes
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5906708750986
Warranty	24 months

Description

The **Akyga® AK-SC-E29** is an ultra-compact adapter that allows you to convert a public EV charging station with a **Type 2 connector** into a power source with a **Schuko socket**. With this adapter, you can **charge your electric bike or scooter** exactly where you need it – whether you're in the city, at a car park, outside the office or on the road.

Simple conversion from Type 2 to Schuko with an adapter

The device is equipped with a **male Type 2 connector** (IEC 62196) and a **female Schuko socket** (CEE 7/4), enabling fast and safe connection of standard mains chargers. It's the perfect solution for users of light electric vehicles who don't always have access to dedicated charging infrastructure. With a **power output of up to 3.5 kW**, the adapter is compatible with most popular Schuko plug chargers available on the market.

Compact, lightweight and ready to go

The lack of a cable makes the AK-SC-E29 Type 2 plug adapter **extremely handy and lightweight** — it fits in a bag, backpack or even a scooter storage compartment. The adapter is safe and has a high IP55 protection rating, making it reliable in a variety of conditions. It is the perfect companion for any city trip or longer journey. The housing provides effective protection against dust and moisture, so the adapter can also be used safely outdoors in everyday weather conditions.

Turn your electric car charging station into a Schuko charging point

Whether you're travelling through a crowded city or cycling along a route beyond the reach of sockets, the Akyga® AK-SC-E29 **adapter allows you to charge wherever there is an electric car charging point available**. It's a practical solution for any user of modern personal transport, offering freedom and energy independence – wherever your journey takes you.
