

USB 5 Gbps Card Reader with SD and Micro SD slot and Memory card storage compartments

Description

This card reader by Delock has two memory card slots and allows to read and write different **SD and Micro SD memory cards**. The card reader can be connected to a PC or a mobile device via the **USB Type-C™**, Lightning or the USB Type-A interface.

Integrated USB port

Due to the **integrated USB Type-A connector**, USB devices can still be used when the card reader is connected to the PC.

Practical card storage

In addition to its function as a card reader, the device also serves as a secure and space-saving **storage solution** for up to **9 cards at once**. SD, Micro SD, and Nano SIM cards can be stored directly within the device, keeping essential storage media well-organized and easily accessible – ideal for **mobile use** or as a backup solution on the go.
