

BETA 2029EM

Tool cases with tool assortments for hybrid and electric vehicles

Features

The essential kit for the maintenance of hybrid and electric vehicles.

FIRST AID IN SAFETY

A complete assortment of tools designed to work quickly, efficiently and with maximum protection on the latest generation of electrified vehicles.

COMPLETE EQUIPMENT

The 2029 E-Mobility tool case offers everything you need for safe work: insulated gloves, warning signs and a combined voltage and continuity tester. A compact and professional solution to meet all operational needs in total safety.

COMPACT AND HANDY

Thanks to its compact dimensions, it is the perfect solution for fast transport and immediate intervention in a variety of critical scenarios.

QUICK IDENTIFICATION

The red colouring of the tool case allows immediate identification, eliminating the need to open it to determine its contents.

52MQ: n. 13 single open end wrenches, 1000V 7-8-9-10-11-12-13-14-15-16-17-19-22 mm
