

PB= Push-Back Probe

mm [inch]

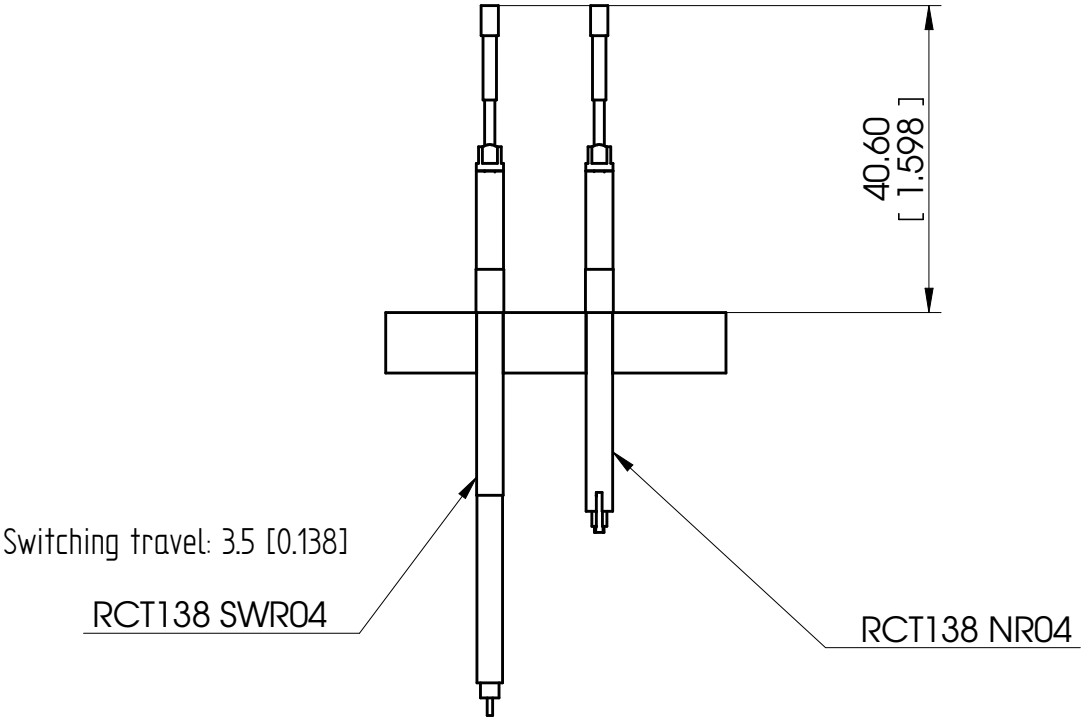

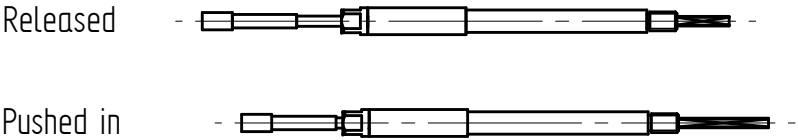

**PB1600 FA56 X**

|                   |                     |
|-------------------|---------------------|
| Minimum centers:  | 4.00 (.160)         |
| Full travel:      | 5.50 (.217)         |
| Working travel:   | 5.00 (.197)         |
| Current rating:   | 1 A                 |
| Probe resistance: | < 30 mΩ             |
| Plunger material: | Steel - Gold Plated |
| Barrel material:  | Brass - Gold Plated |
| Spring material:  | MW-Plated           |

Operating temperature: -40 °C up to +80 °C  
(-40 °F up to +176 °F)

Spring force at working stroke: 25.0 N (89.9 oz)

|                                                                                                                                                                                                                                                       |                     |                                                                                                                                                  |                          |                                                                                  |
